WRITER CAMP STUDIOS - ROTTERDAM - HOFBOGEN
2 CONNECTED STUDIOS - CATERED LOUNGE

Writer Camp Studios in Rotterdam

Specially designed and connected studios (approximately 100 m²) for Writer Camps in De Hofbogen of Rotterdam Noord, located near a highway exit and easily accessible with public transport from Rotterdam Central Station.

From idea to mastered version in a single session.

Both studios are equipped with industry-standard audio interfaces with a vast array of both analog and digital inputs and outputs. Up to 64 channels of audio can be streamed latency-free from studio to studio via MADI. For example, studio 1 can serve as a control room and studio 2 as a live/tracking room (including talkback and monitoring), or vice versa. Of course, it's also possible to work with two teams in parallel, with rapid iteration and a joint playback at the end of the day. We've also catered to your needs: customized catering is available. Looking for accommodation nearby? We can arrange this for you through agreements with nearby accommodations. The studios are run by the three founders: experienced music producers, label owners, and DJs with approximately 30 years of experience each.

Why this studio?

- Two connected rooms = writing/producing/recording simultaneously.
- All gear can be used from both rooms.
- Both studios can be used as vocal booths and acoustic recordings.
- Very easily accessible (ring within minutes, easily accessible from Central Station)
- Camp-ready workflow (session management, exports, backups)
- Privacy & focus (NDAs possible)
